

H2O CORROSION CONTROL PUMP SPRAY DIELECTRIC STRENGTH TO 30,000 VOLTS SUPERIOR MOISTURE INHIBITOR

- **Electrical Enclosures**
- **Non-Aerosol Contact Point Protection**
- **Corrosion-Free Storage**
- **Underground Equipment**

Nonfood Compounds
H2

Corrosion Control is a light oil, dielectric formulation that protects against rust and corrosion. With the Corrosion Control barrier in place moisture can no longer penetrate the surface , sealing metal from the elements. Let Corrosion Control protect your machinery, vehicles, electrical systems, guns, hand tools, fishing gear, as well as any other metal items you want to safeguard from moisture damage.
